[H & H Foods Final Phase I ESA Report 2014 Reduced Size Part1.pdf](#)

Karen,

The Report will be sent in 5 separate emails. I will not cc everyone on all 5 separate emails. If anyone else would like all 5 emails please let me know.

Thanks,

Kristy

Kristy,

I will ask someone to check for envelope with CD.

Thanks.

Karen

Karen,

We sent a CD to your office last week. It contains the report and other information we thought you might like to review. The pdf of the Phase I is too large to email. I will go right now and see if I can find someone who can break the file into pieces that I can email you today. The Project Manager for the site, Richard Peltier, is out today.

Thanks,

Kristy

Anna,

Hi! I forgot to note. I still do not have a copy of the Phase I ESA for this site. Without that Phase I ESA I can not complete a timely review for FSP/HASP. Please send me copy of Phase I ESA immediately.

Thanks.

Karen

Hi Karen.

As a follow up to our conversation as to items that you could birddog for us we discussed your assistance on the H&H Foods (G150) FSP/HASP. As an update, we have completed the draft FSP/HASP which details the field work planned for the Phase II to be completed in May. We are currently obtaining signatures from our contractor/labs and should have the document ready to forward to you early next week for your review. In essence of time, please let us know if you would be open to reviewing the documents in the meanwhile until signatures are secured. We would immediately forward final signed documents your way early next week.

As we discussed in February, this is an important project to our program/division and we would appreciate your efforts in expediting your review. To assist in providing you with some background for this site, a CD of the Phase I and historical information on the site was sent to your attention earlier this week. Please let us know what your anticipated turnaround time may be on your review for our planning purposes. Also, let us know if we can assist in any way to further facilitate the review.

Thank you,

Anna Rodriguez Brulloths, Manager

VCP-CA Section, Remediation Division

Subject: Mercedes Brownfields Site - Field Sampling Plan (QAPP) Expedited

Kristy et al,

Hi! Just wanted to follow up from our conversation last week (February 11 & 12, 2015) regarding high priority to review the Mercedes Brownfields site Phase II ESA (field sampling plan) Quality Assurance Project Plan. First, please send me all past assessments completed – Phase I ESA, other Phase II ESAs, etc. to review in anticipation of receiving FSP for Mercedes Brownfields site. Second, the timing for turnaround/review of QAPPs is generally 30 days, but since there is significant pressure on TCEQ from State Senator representing Mercedes, TX interests, I will move FSP to the front of the line for review when I receive FSP from TCEQ.

I look forward to receiving background information (Phase I ESAs, and other ESAs). Hope this will help.

Thanks!

Karen Peycke

Brownfields Project Manager
